Buyer Beware Update,

A lot of people thought that they were getting a good deal, by purchasing a dry R22 unit. As stated last year, not only did they purchase a unit that wasn't a matched system (probably no permit) but as of the first of this year Freon 22 had a price increase of approximately 250 Percent !!!!

We at Barnes neither purchased nor sold any dry R22 units in 2011. We lost business but we feel that it would be unfair to our customers to sell them a product at a low price that will end up costing them in the long run.

As stated before, there is more on this subject. We will be glad to try and explain.

Sincerely,

Earnest H. Watson  
Owner, Operator
